## USER MANUAL

# THANK YOU FOR PURCHASING SkimmerMotion

Your SkimmerMotion XTREME is designed and manufactured for years of carefree operation.

Before installing your SkimmerMotion XTREME, review and understand all warnings, safety and warranty information in this document.

## IMPORTANT NOTICE

### TO THE INSTALLER:

This guide contains important information about the installation, operation and safe use of this product. This information should be given to the owner and/or operator of this equipment after installation of the pool cleaner.

### TO THE USER:

This guide contains important information that will help you in operating and maintaining this pool cleaner. Please retain it for future reference. Consult **Only About Innovation** with any questions regarding the SkimmerMotion XTREME and its accessories.

## MAINTENANCE

Periodically keep the SkimmerMotion XTREME basket clear of leaves and any other debris. Keep the pump filter clean and make sure the SkimmerMotion XTREME waterfall is working.

## WARNING

**WARNING** Before installing this product, read and follow all warning notices and instructions that are included. Failure to follow safety warnings and instructions can result in severe injury, death, or property damage.

**WARNING** To avoid the risk of injury, do not let children use or play with SkimmerMotion XTREME.

**WARNING** Hazardous suction. Do not play with cleaner or hose or apply to body. Suction can trap and tear hair or body parts. Do not allow swimmers in the pool while pool cleaner is operating. Hose can trip or entangle swimmers which could result in drowning.

**WARNING** Suction entrapment, injury, and drowning hazard. If your pool has a dedicated suction port (“vac port”) for vacuuming or for an automatic pool cleaner, it must be covered when not in use. A “vac port fitting” can be purchased at your local pool store and must conform to the IAPMO SPS4-99A standard.

**WARNING** Stop pump before attempting to clean unit. Do not allow swimmers in pool while pool cleaner is operating.

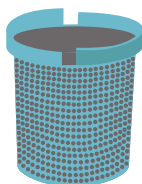

## PARTS

The following parts are included with your SkimmerMotion XTREME

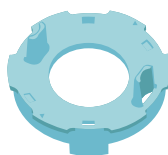

**THE XTREME POOL SURFACE CLEANER**

SKMX-20 PSC  
850013030026

**BASKET**

SKMX-20 BASKET  
850013030064

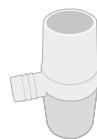

**TOP**

SKMX-20 TOP  
850013030040

**RING**

SKMX-20 RING  
850013030057

**T-JOINT\***

748252054883

\* CONNECTED  
TO THE HOSE

**2 BALLASTS**

019962424717

\* CONNECTED  
TO THE HOSE

**SKM-10 ZODIAC™ ADAPTER**

309788641260

\* ONLY FOR CUSTOMERS  
WITH ZODIAC CLEANERS

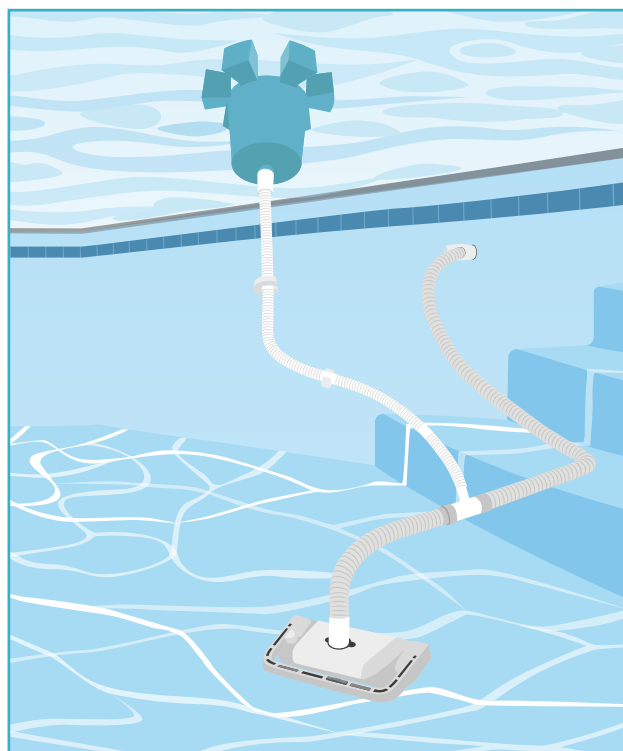

**3/4" CORRUGATED HOSE**

SKM-10 HOSE4F  
850013030019

## QUICK INSTRUCTIONS

1. Clean the pool filter & basket.
2. Connect the hoses as per the picture attached.
3. Verify that all the pool hoses and T-joint connections are tight.\*
4. Introduce the **TOP** with the **WATERFALL RING** inside the base.
5. If you have a Variable Speed Pump (VSP), set speed between 2900-3450 before next step.
6. At the pool pump, close the main drain, decrease wall skimmer suction, increase suction to the suction port connected to SkimmerMotion XTREME. Run the pump at least 3 hours per day for optimal performance.

\* Zodiac™ twist connector required an Adapter included in the box.

## INSTALLATION GUIDE

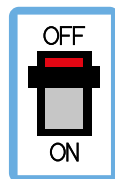

- 1 Unpack**  
Hose, T-joint, ring and ballasts are pre-assembly

- 2 Stretch** each segment of the 3/4" corrugated hose to eliminate memory

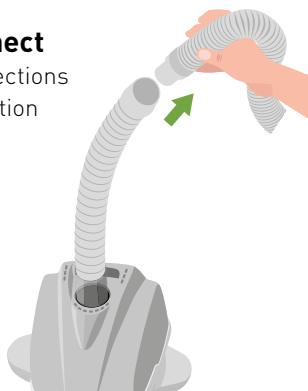

- 3 Turn Pump Off**  
and any electrical source from the pool before installation

- 4 Clean / Backwash**  
pool filter & basket

- 5 Disconnect**  
the two sections of the suction cleaner hose

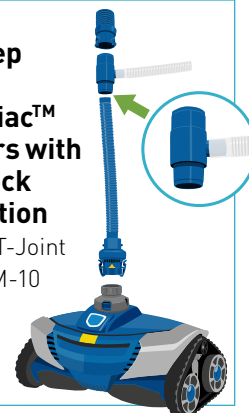

**Pools up to 8 ft deep:**  
Unplug the main hose  
**4 ft (one segment)** from  
the suction side cleaner

**Pools over 8 ft deep:**  
Unplug the main hose  
**8 ft (two segments)** from  
the suction side cleaner

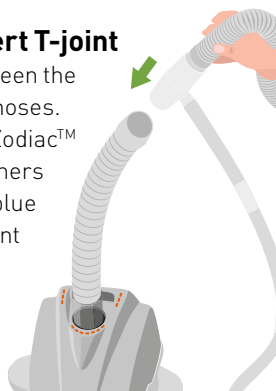

- 6 This step is only for Zodiac™ cleaners with twist lock connection**

Replace T-Joint with SKM-10  
Zodiac™ Adapter

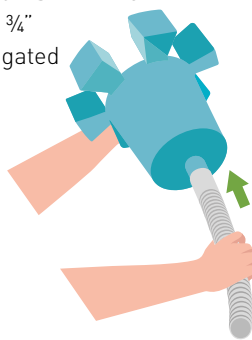

## 7 Insert T-joint

between the two hoses.  
For Zodiac™ Cleaners use blue T-Joint

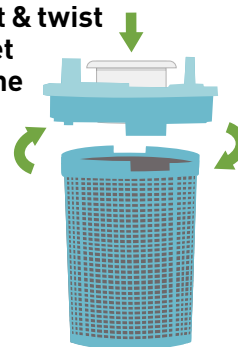

## 8 Attach Skimmer

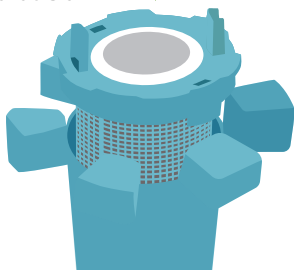

to the 3/4" corrugated hose

## 9 Insert & twist basket into the top

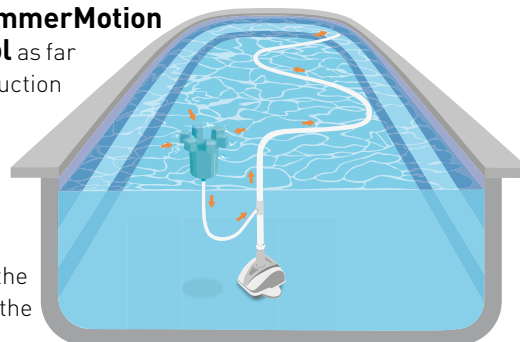

## 10 Insert top with basket into the base

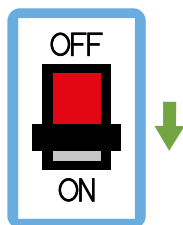

## 11 Get cleaner & SkimmerMotion XTREME in the pool

as far as possible from the suction port. Submerge the SkimmerMotion XTREME completely underwater. Check there are no bubbles or hose tangle. Check the corrugated hose is on the side from the cleaner.

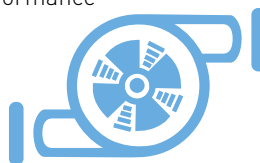

## 12 Turn Pump On

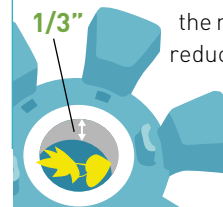

## 13 Variable Speed Pump?

Set VSP pump between 2800 to 3450 rpm before next step. Run +3 hours per day over 2900 rpm for better performance \*

## 14 Adjust suction at the pool

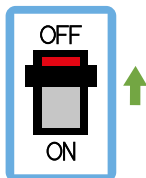

Move the pump valves to increase suction until the side cleaner moves normally and the waterfall in the border of the ring is around 1/3" below the water level. If necessary, close the main drain and reduce wall skimmer suction.

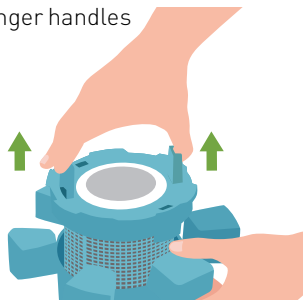

\* Skip this step if you don't have a variable Speed Pump VSP.

## CLEANING BASKET

- 1 Turn Pump Off**  
and any electrical source  
from the pool before  
handling.

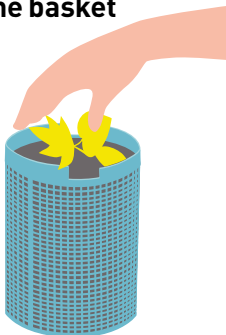

- 2 Remove top  
and basket** using the  
finger handles

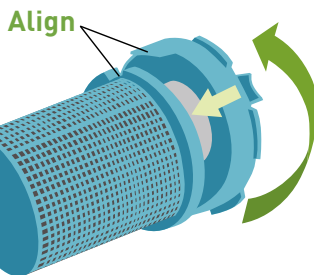

- 3 Twist counter-  
clockwise to open**

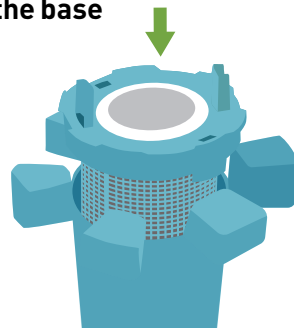

- 4 Clean the basket**

- 5 Align and insert**  
& twist clockwise to close

- 6 Insert back into  
the base**

## TROUBLESHOOTING

SYMPTOM	PROBABLE CAUSE	REMEDY	
<b>Weak or waterfall less than 0.3"</b>  <b>Not enough suction power</b>  <b>Automatic pool cleaner floating or not holding to the ground</b>	Pool filter clogged	Clean pool pump basket & filter.	
	Corrugated hose clogged or broken	Clean hose with fresh water or replace hose.	
	Not enough system vacuum	At the pool pump, close the main drain and decrease wall skimmer suction, then increase suction to the suction port connected to SkimmerMotion XTREME and bottom cleaner.	
		Connect T-joint firmly to your suction cleaner. Check that all pool hoses are tight.	
<b>Bottom Pool Cleaner Disconnects from SkimmerMotion XTREME</b>	Loose T-joint	Connect firmly the T-joint to your suction cleaner & check that all the hoses are tight. Replace T-joint.	
<b>T-joint (supplied) does not fit my Zodiac™ twist lock connector</b>	Zodiac™ MX8, X7, T3 and T5 use a special twist connector.	Install a twist lock Adapter to the blue T-joint.	
<b>SkimmerMotion XTREME hose tangles with the pool cleaner hose</b>	SkimmerMotion XTREME Corrugated hose curved or coiled.	Stretch each segment of the 3/4" corrugated hose to eliminate memory.	
	Wrong hose position.	Check corrugated hose is on the sides of the suction side cleaner, not up or down.	
	Initial setup needs to be corrected	Extend the pool cleaner & SkimmerMotion XTREME hoses as far as possible from the suction port. Eliminate bubbles from the hoses.
